Mission and Purpose

The Alaska Psychology Internship Consortium's (AK-PIC) mission is to prepare and retain psychologists to provide culturally competent collaborative health care for Alaska's unique and diverse people.

AK-PIC represents the collaborative effort of five Alaska agencies to share resources and faculty for the purpose of providing a diversified educational program for pre-doctoral psychology interns. The consortium was designed to prepare interns to meet the unique challenges of practicing psychology in rural and remote settings and to ensure clinical competency in working with Alaska's various cultural groups.

Accreditation Status

AK-PIC is an APPIC-approved internship program. AK-PIC will seek APA accreditation by the spring of 2012. If granted, APA accreditation would be retroactive and applicable to the 2011-2012 class.

Experience New Cultures

To attend, participants must be applying for internship within the next two years.
